To Whom It May Concern

I have known Laszlo Daragics, of Bonus Eventus, for more than a year both personally and professionally. He, and his firm, are trustworthy, competent, effective and value for money. His team have resolved a number of long-standing issues with the heating and water systems at St Peter's Church, Farnborough, where I am Churchwarden. Matters which have escaped the notice of previous maintenance firms have been identified within minutes and resolved quickly and with the most appropriate solution and cost-effectively. I would have no hesitation in recommending Bonus Eventus.

With kind regards

Graham
